Wood Burning and Multifuel Stoves for the home

Ecodesign Ready/Smoke Exemption Approved Stoves

DESIGNED
IN THE UK

Warming your world

NEWBOURNE RANGE

Bring your living room to life with a wood burning or multifuel stove

The Newbourne Wood Burning and Multifuel Range offers a collection of British-designed stoves featuring both freestanding and inset models, with heat outputs up to 7kW.

This superb collection has been designed not only as attractive appliances for the home but also as high performance stoves, able to meet the Ecodesign environmental requirements of today and tomorrow and approved for use in smoke control areas throughout the UK. The Newbourne Range offers contemporary and sleek designs with the latest technology in primary air control plus a secondary air wash which effectively keeps the fire window clean, and tertiary air to ensure a clean burn high-efficiency performance, whether burning wood or smokeless fuel.**

This year the standard Newbourne 35FS and 40FS fireboxes have been upgraded to exceed the latest Ecodesign standards and for highly insulated homes, the brand new Direct Air Newbourne 35FS and 40FS are available allowing connection to an outside air supply. The Newbourne 40i Inset has been redesigned with a larger door and with a new 45 degree angled fireback which allows for easier installation into existing fireplaces.

There is nothing quite like a living flame fire to make a room warm and cosy, where you can appreciate and enjoy the mesmerising dancing flames and wonderful heat that these stoves can produce. But not only will a Newbourne Multifuel stove give superb performance and a long, trouble-free life, they are supported by a **5-year manufacturer's guarantee***, so you know in choosing a Newbourne model from Pevex, you will always have peace of mind.

*Terms and conditions apply

** Approved Smokeless fuel can be burnt on our standard range

NEWBOURNE

35FS ECODESIGN 2-5kW

Small in size, but big in performance, the 35FS offers excellent output of 4.6kW nominal heat

The smallest multifuel stove in the Newbourne Range, making it ideal for installation into small fireplaces and today's smaller homes.

Although small in size, it is big in features with an impressive 82.6% efficiency, stylish good looks and excellent heat output. A full size curved door and large viewing window gives an impressive view of the fire burning beautifully yet efficiently in the fire chamber. With a portrait design, the stove is ideal for installation in canal boats, townhouses or country cottages, and fits a minimum fireplace opening of 18" x 26" height, whether installed into a fireplace or a free-standing situation, to warm your home and heart.

Newbourne 35FS available with a 200mm or 400mm high logstore option (illustrated to the right).

Options

- Available with 110mm and 160mm leg lengths
- Available with 200mm or 400mm high logstore option

FREESTANDING STOVES

NEWBOURNE 35FS DIRECT AIR ECODESIGN 2-6kW

The New Newbourne 35FS wood-burning stove with its portrait design can be fitted into narrower fireplaces but still provides a very useful 4.5kW of heat output.

A fresh air connection can be made to an external air supply for modern highly insulated houses if required.

A very pretty small modern stove with its gently curving door and large window allowing wonderful views of the dancing swirling flames.

An efficiency of 80.7% and suitable for use in smokeless zones as well as exceeding Ecodesign requirements, this stove is designed for now and the future.

Optional logstores, 3 different leg lengths and chrome and wooden handles allows customisable flexibility.

Options

- Available with 110mm and 160mm leg lengths
- Available with 200mm or 400mm high logstore

Features

- OUTPUT RANGE OF 3-6KW
- NOMINAL OUTPUT: 4.6KW
- 80.7% EFFICIENCY

Newbourne 40FS Direct Air Dimensions

MULTIFUEL, INSET STOVE

NEWBOURNE

40i INSET ECODESIGN 3-6kW

A striking inset stove featuring simple operation

Offering an impressive 4.5kW nominal output of clean burn performance, with a built-in air wash to ensure that the fire window remains clean throughout the stove's use.

The Newbourne 40i Inset offers the same strikingly good looks and simple operation as the Newbourne freestanding range but with the advantage that it is designed to fit directly into an existing 16" x 22" British fireplace opening and will instantly improve the look and efficiency compared with the existing open fire*.

The Newbourne 40i Inset offers 4.5kW output, a large picture window, multifuel use, convection side legs and top plate, clean burn performance with built-in tertiary air and easy to use air controls.

Easy installation, can be achieved with its new 45 degree rear fireback and be installed with or without a liner.

*Existing fireplace must be suitable for solid fuel use and if used with a back panel and hearth then it is recommended that these are sectioned with expansion joints.

Options

- Optional 5" or 6" diameter flue collar

Features

- OUTPUT RANGE OF 3-6KW
- NOMINAL OUTPUT: 4.5KW
- CLEAN BURN WITH EFFICIENCIES UP TO 80%
- DESIGNED FOR MULTIFUEL USE
- COOL TOUCH STAINLESS STEEL HANDLE
- BUILT-IN AIRWASH
- CONVECTION SIDES AND TOP PLATE
- EN 13229 AND SEA APPROVED
- SUITABLE FOR USE IN SMOKE CONTROL AREAS

NEWBOURNE OPTIONAL EXTRAS

Optional extras are available on all models, from stove stands for free standing models designed to elevate the stove for easier loading and storage of logs, to a choice of black or chrome handles and knobs.

Chrome

Black

Brushed Steel
