

Icon-Line

🇩🇰 Made in Denmark

HETA's range of stoves, Icon-Line, which includes the models Eclipse, Eclipse XL and Moderna, is a stylish and exclusive product series. The stoves in the Icon-Line series are available in a timeless, stylish black or gray color. You can choose between steel and soapstone, and they are easy to operate with the air regulation function at the front of the stove. All models in the Icon-Line series come with Heta's combustion technique, Clean Burn, which effectively and environmentally friendly ensures a clean combustion and exquisite view of the flames.

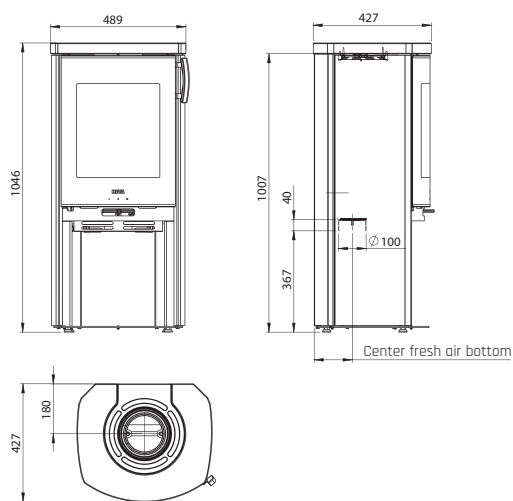

Moderna

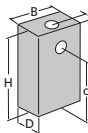

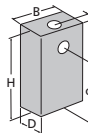

Moderna has a stylish glass front and can be chosen both with and without side glass and bottom door. The wood-burning stove is available in a black and gray color, so that it appears as a unifying, cozy and warm focal point in the living room. It is possible to choose between steel and soapstone in both variants.

It is possible to purchase Heta's HAC 2.0 technology for Moderna, which is easy to control through Heta's app for Android/iOS via Bluetooth. There is an indicator attached to the oven which, using color codes (red, yellow and green) draws attention to if there is a need for new ignition, or if too much firewood is loaded.

The stove's door is equipped with a door sensor that detects when new firewood has been added.
